

The Office of the Vice Chancellor for Research presents:

LET'S TALK RESEARCH

Early Career Faculty Research Funding Opportunity Workshop

Time: Tuesday, April 22, 2025, 11 am – 1 pm

Location: Morris Library 752/754

The Office of the Vice Chancellor for Research invites you to an Early Career Faculty Research Funding Opportunity Workshop. This workshop will introduce **early career** funding opportunities from agencies such as NSF, DoD, NASA, DoE, and NIH. SIUC faculty who have successfully secured federal and early career funding and have served as proposal reviewers will share their insights on preparing strong Early Career proposals. As part of the session, we will also introduce the new [SIUC Research Hub](#), a centralized platform designed to provide fast and easy access to open federal funding opportunities

Participants will receive access to anonymized examples of submitted NSF CAREER proposals, offering a unique, behind-the-scenes look at successful early-career applications.

Presenters/Panelists:

- Dr. Senetta Bancroft (Associate Professor, School of Chemical and Biomolecular Sciences and School of Education)
- Dr. Judy Davie (Associate Professor and Chair, Department of Biomedical Sciences)
- Dr. Lahiru Jayakody (Assistant Professor, Department of Microbiology)
- Dr. Gary Kinsel (Professor, School of Chemical and Biomolecular Sciences)
- Dr. Jia Liu (Associate Professor, School of Civil, Environmental and Infrastructure Engineering)
