Title slide for your presentation

Student’s name, Major
Faculty sponsor

Virtual Presentation length 7 minutes
Introduction
(Why is this Important? What did you do?)

• Summarize background, including key terms, relevant to your project. Provide sufficient detail for individuals in other areas to understand the relevance and context of your work.

• Insert Image if helpful.

• Summarize the overarching objective(s) or question(s) addressed in your project. If appropriate, state specific hypotheses, research questions or creative goals.
Materials/Approaches/
Creative Process
(How did you do it?)

• Summarizes the approach you took to address your objective(s) or question(s).

• Summarize the primary methods you used or are using to accomplish the objectives of your study. Optional- make use of flow charts or image to illustrate your methods/approaches or creative process.
Results/Findings/Outcomes
(What did you find?)

• Given your objectives or hypotheses, describe your project’s results or outcomes.

• Insert Figures/Tables or images to describe your results/outcomes or final creation.
Conclusions

• Compare what you found to the literature.

• Describe how your project and the results/findings/outcomes you obtained will advance your particular field of study.

• Describe any recommendations or future directions for your project.
Acknowledgements/Citations

- Provide credit to individuals, groups, or agencies that have or will support your work

- Make special note of financial support for your research via grants, awards, etc.

- List key sources
